PROJECTS

UI/UX Designer – HackMingle Hackathon

Goutina Mobile App (Figma Prototype)

2023-2024

Mahdia

- Designed a mobile app prototype for **Goutina**, a local cake company, during Google Developer Student Club HackMingle.
- Built high-fidelity interactive mockups in **Figma** (catalog → product page → cart → payment flow).
- Mapped user flows and created wireframes to optimize product discovery and purchase process.
- Focused on smooth user experience with a visually appealing and intuitive UI.
- Collaborated with a multidisciplinary team to align design with business goals.
- Presented the clickable prototype to the jury and received positive feedback on design and usability.
- Tools Technologies: **Figma**, **Adobe Photoshop**, **React.js** (concepts applied in prototype design).

UI/UX Designer – Microsoft ISIMA Club Hackathon

No More Slavery (NMS) Platform

2024-2025

Mahdia

- Designed and developed the full UI/UX for both the NMS Mobile App (Login, Feed, Chat, Call) and Web/Desktop Interface (Landing page, Donation page, Organizations section).
- Created high-fidelity mockups in **Figma** with a cohesive gradient-based visual theme for engaging user interaction.
- Developed a Community Feed feature allowing users to anonymously post problems, share experiences, and expose crimes, creating a secure digital witness network.
- Implemented a dedicated Organizations section connecting users with verified global anti-slavery groups (UNICEF, ILO, Anti-Slavery International, Free the Slaves).
- Designed a secure "Donate To Save Children" section with a progress bar and input fields for donations.
- Outlined private Chat and Call sections to enable direct communication between users and support personnel.
- Tools Technologies: **Figma**, **Adobe Photoshop**, **React.js**, **Firebase/Python**.

Scrum Master & Full-Stack Developer

BoomPlan: Plateforme de Réservation de Salles de Fête

2024-2025

Mahdia

- Dirigé l'équipe en tant que **Scrum Master** (5 Sprints) pour le développement d'une plateforme de réservation en ligne de salles des fêtes.
- Stack Technique **Full-Stack (MERN Variant)**: **Next.js** (Front-End), **Node.js/Express.js** (API), **MongoDB** (Base de données), **Tailwind CSS** pour le style.
- Implémenté les API **CRUD** et la **logique de réservation en temps réel** pour gérer les conflits de disponibilité et les cycles de vie des réservations.
- Développé le **Dashboard Admin** avec gestion des rôles, suivi des réservations et validation/annulation des commandes (architecture **MVC**).
- Finalisé le projet par l'intégration d'un système de **notifications par email** et des tests **End-to-End (E2E)**.

CLUBS & ACTIVITIES

Microsoft ISIMA Club – Member

Participated in organizing workshops and hackathons, assisted fellow students with programming concepts, and contributed to creating a collaborative learning environment within the club.

SKILLS

Technical

Figma UI/UX Design HTML
CSS JavaScript React Native
Python React.js Power BI
Next.js Node.js
Express.js MongoDB
Tailwind CSS Adobe Photoshop

Soft

Team Collaboration Adaptability
Problem Solving Strategic Thinking
Communication SCRUM Agile
Scrum Master

LANGUAGES

Arabic: Native / Fluent

French: Intermediate

English: Intermediate

EDUCATION

Bachelor's Degree in Computer Science

Higher Institute of Computer Science (ISIMA) | Mahdia

2024-2025

Baccalaureate in Computer Science

Mhamdia 1 High School

2023

INTERESTS

Football: Played for 8 years at **Avenir Sportive de Mhamdia**, developing teamwork, discipline, and perseverance.
